REPORT OF THE AUDITOR OF STATE.

STATE OF IOWA,
OFFICE OF THE AUDITOR OF STATE,
DES MOINES, September 19, 1893.

To his Excellency, HORACE BOIES, Governor of the State of Iowa :

SIR--In compliance with sub-division 11, section 66 of the Code, I present herewith my report of the financial affairs of the State for the biennial fiscal period beginning July 1, 1891, and ending June 30, 1893.

GENERAL REVENUE.

During the period ended June 30, 1893, there was paid into the treasury on account of general revenue, \$3,706,151.77, which, being added to the cash in the treasury at the beginning of the period July 1, 1891, viz: \$488,058.95, made a total of \$4,194,210.72 available for current expenses. The disbursements for the same period in the payment of Auditor's warrants and interest thereon, amounted to \$3,781,229.27, leaving a balance in the treasury June 30, 1893, of \$412,981.45. The monthly reports of the County Treasurers for the month of July, 1893, made to this office, show that there was \$33,004.19 cash in their hands on the first day of July, 1893, belonging to the State (see statement No. 28), which, added to the balance in the State Treasury, shown above, makes a total of \$445,985.64, with which to begin the next fiscal period.

The taxes levied in 1892 and previous years, yet due and uncollected, amount to \$692,860.07 (see statement No. 29). A large portion of this, however, is for delinquent State taxes for 1892 and previous years, viz: \$485,798.18 for 1892, and \$168,258.66 for previous years. The amounts due on account of the various State institutions, shown by statement No. 29, amounting to \$38,803.23, will all be paid, and of the amount due on account of State revenue, probably \$400,000.00, making a total of \$438,803.23, the

amount due from the counties, which might reasonably be classed as available, and which, added to the total cash in State and county treasuries, viz: \$445,985.64, makes the total available cash assets of the State at the close of business June 30, 1893, \$884,788.87.

ESTIMATED RECEIPTS.

Statement No. 8 is my estimate of the receipts for the next two years, amounting to \$3,287,530, which is based upon a two mill levy, and such additional receipts from other sources as past experience and present conditions, in my opinion, seem to justify, and while I believe the estimate is conservative and will be fully realized, I do not think it would be prudent or safe to anticipate more. This, added to the available resources shown above, makes the total available resources for the next biennial period, \$4,172,319.00, but from this must be deducted \$171,001.45, being the amount of the extraordinary appropriations of the Twenty-fourth General Assembly yet undrawn, as shown by statement No. 10, and the outstanding warrants on June 30, 1893, amounting to \$21,281.28, both of which are liabilities and must be met, making an aggregate of \$192,283.00, which will leave the net available resources for the next biennial period, \$3,980,036.00.

ESTIMATED EXPENDITURES.

Statement No. 9 is my estimate of the expenditures for the next biennial period, and is based upon the present general laws, and the expenditures during the last fiscal period, and amounts to \$2,862,770.00. This does not include any special or extraordinary appropriations which have been made in the past and which may be made by the Twenty-fifth General Assembly. By subtracting this from the probable available resources for the period ending June 30, 1895, viz: \$3,980,036, we find the probable available amount for extraordinary appropriations by the Twenty-fifth General Assembly to be \$1,117,266.00. Inasmuch as there will probably be as much uncollected tax at the end of the next biennial period as at the present time, it would be wise, I think, to deduct the amount of uncollected taxes used above in the available cash assets, viz: \$438,803.00 from this amount, which would leave the cash assets June 30, 1893, at \$445,986.00, instead of \$884,789.00, as shown above, and \$678,463.00 or \$700,000.00 in round numbers, as the amount available for the legislature to appropriate for extraordinary purposes. It is not impossible for the receipts to be less than estimated, or for the expenditures to be more than estimated,

in which event it would be unsafe to go thus far with the extraordinary appropriations. As the State grows older and the population increases, the expense will necessarily increase, and judging from the past, in a far greater ratio than the receipts will increase, and I am fully persuaded that our State levy *must*, in the near future, be increased to two and one-half mills, and that it *should* be done by the Twenty-fifth General Assembly.

REVENUE ACCOUNTS.

If the law relating to the collection of State tax was changed so as to make the counties responsible to the State for the entire amount of the State tax levied, and payable into the State treasury quarterly or semi-annually, I think it would prove beneficial to the State and equally as well for the counties. In my opinion it would stimulate the collection of delinquent taxes and make the revenues or resources of the State certain and absolute, and eliminate all uncertainty regarding available means. It would also greatly lessen the work in this office and in the office of the State Treasurer, as well as for the county treasurers and auditors. I do not think this change would cause any loss to the counties, as the interest on delinquent taxes, together with any additional assessments which might be made, would reimburse them for all loss on account of unavailable taxes. By this change the State would be more secure in its revenue, the counties relieved of much extra work and not damaged to any extent.

ASSESSMENT OF REAL ESTATE AND PERSONAL PROPERTY.

In the assessment of real estate and personal property within the State and the equalization of same so that all property should bear an equal share of the burden of State taxation it has been for many years a difficult and vexed problem, and the officers upon whom the duty devolves to equalize said assessments, have labored in vain, and all their efforts have proved futile in accomplishing it.

Our laws require that all property shall be assessed at its actual cash value. Notwithstanding the law is plain and explicit its violation has been notorious and almost universal, although differing in degrees, and consequently no two counties bear exactly the same proportion of State tax. It is my opinion that the average assessment of real estate and personal property in this State for many years does not exceed 25 per cent of its actual cash value, and the duty of the State board of equalization, viz. The adjustment of the inequalities of assessment is made practically an impossibility

because the per centage assessed differs in almost every county in the State

For several years past efforts have been put forth to correct and if possible remedy the evils flowing from unequal and unlawful assessments, but nothing tangible or important was accomplished until the session of the Twenty-fourth General Assembly which passed an act "to provide a Revenue Commission to revise the laws."

Section 1, chapter 72, of the laws of 1892, provides for the appointment of a commission consisting of four (4) persons whose duty it shall be to studiously and carefully examine the revenue and taxation laws of the State and report necessary and desirable changes to the Twenty-fifth General Assembly.

In compliance therewith the following persons were appointed by the Executive Council as commissioners: Hon. A. N. Poyneer, of Montour; Hon. C. E. Whiting, of Onawa; Hon. Charles A. Clarke, of Cedar Rapids, and Hon. August Post, of Moulton. Subsequently, Hon. A. N. Poyneer having resigned, Hon. E. C. Lane, of Guthrie Center, was appointed to fill vacancy.

The tax commission, after a careful, studious, laborious and intelligent examination of our revenue and tax laws, has finished its duties and labors and embodied in the form of a bill the results of their labor. This bill will be presented to the Twenty-fifth General Assembly for consideration and adoption.

I am satisfied that if all property was assessed at its true cash value our levy for State revenue need not exceed one mill on the dollar; and I believe that the lowering of the maximum levy for county and State purposes would force the raising of values to their proper place in order to be able to realize the necessary amount for county purposes.

The recommendations of the tax commission relating to the assessment of real estate and personal property at its true cash value, and the reduction of the maximum rate of taxation for State and county revenue are valuable, timely, just and wise, and I believe the only practicable and feasible plan to correct and remedy as far as possible the evils of unequal assessment of property and unequal and unjust burdens of taxation.

If this policy shall become the law of this State and be rigidly adhered to and faithfully carried out by all the officials charged with the execution of the law, then may we hope to see our grand State take her proper position in point of wealth among her sister states. The assessed value would be increased from \$560,000,000 to about

\$2,000,000,000, and our levy for State revenue would then be reduced to one mill or less on the dollar, and all levies for county and other funds would be reduced correspondingly. No more money would be collected as taxes for any purpose than is collected now or may be necessary, but the change from low assessment and high rate of taxation to reasonable cash valuation of all property and the lowest possible limit of levy for taxation purposes would be much more creditable and beneficial to our State and every citizen who lives or pays taxes in it.

RETURNS OF ASSESSORS TO COUNTY AND STATE AUDITORS.

The remarks of my predecessor, Hon. J. A. Lyons, in his last biennial report, touching the "returns of assessors to county and State auditor," meet with my hearty concurrence, and the difficulty experienced by him in getting the same from all the counties in time for the State board of equalization to act upon them, before the day of final adjournment, has been in part experienced by me this year, Woodbury county failing to file its abstract of assessment until August 29th, twenty-two days after the day fixed by law for the completion of the equalization. As before, the county auditor charges the delay upon the city council of Sioux City, and they in turn, upon the assessors of said city, and the State board was again compelled to estimate the valuation of Woodbury county, or rather to decide upon what the assessment of said county should be before receiving the report. The suggestions, or recommendations made by my predecessor under this head seem to me to be as good as I could make, looking toward a remedy for this evil, and as the Twenty-fifth General Assembly will doubtless enact a law similar to the one referred to above, recommended by the revenue commission, I feel assured that this feature will not be overlooked, and that in the future this trouble will not occur.

In the preparation of the tables or statements contained in this report, I have endeavored to give the most useful information in regard to the fiscal affairs of the State, and I trust you will find them so:

Statement No. 3 is in detail the bills allowed by the executive council under section 120 of the Code, embracing all supplies used and current expenses (except the stationery contracts), together with the several amounts paid the clerk of the executive council, the clerks in the State offices on account of deficits in the appropriations made by the Twenty-third General Assembly, to the messenger in the Governor's office, and to the office janitors on account of a deficit in the appropriation made by the last legislature for

that purpose, amounting in all to \$54,084.09 as against \$29,620.91 during the period ended June 30, 1891.

Statements Nos. 31 to 35 show the amount of fees earned by the various officers by months and the aggregate for the two years. By this it will be seen that this office earned \$63,127.90 as against \$59,930.50 during the former period; the clerk's office \$4,505.00 as against \$5,704.49 during the two years before; the secretary's office \$15,934.95 as against \$12,266.90 for the period ended June 30, 1891; \$1,140.00 by the office of superintendent of public instruction as against \$856.50 during the period before this, and \$10,228.67 by the office of oil inspector not reported before, making a total of \$94,936.52 of fees earned by the several State offices and paid into the treasury, of which sum you will notice, this office earned two-thirds.

BANKS.

The increase in the number of State and Savings Banks during the year ending June 30, 1893, was eighty-one—the largest increase in any one year in the history of the State.

The report of my predecessor in office shows that on June 30, 1891, there were 205 incorporated banks doing business under the State law. His report published a year ago shows a total of 245 banks.

On June 30, 1893, 148 Savings Banks and 177 State Banks, or a total of 325 banks reported to this office.

The following tables show the total assets and liabilities of the Savings and State Banks at the close of business June 30, 1893:

The total assets of the State and Savings Banks at the close of business June 30, 1892, were \$59,011,405.14.

It will be noticed that there has been an increase in assets during the past year, of \$1,843,437.47. Of this amount \$1,749,920.00 is increase in capital by reason of the organization of new banks.

The total deposits, June 30, 1892, were \$42,476,395.89. Those of June 30, 1893, were \$42,151,434.35, or a decrease of \$324,961.58.

The reports on file in this office show a gradual increase in deposits up to the beginning of the present financial stringency.

At the close of business, March 31, 1893, the total deposits amounted to \$46,069,920.68. It will thus be seen that in the three months from March 31 to June 30, 1893, the deposits decreased \$3,918,486.33, or about 8½ per cent. In view of the financial disturbances all over our country, amounting almost to a panic in many states and cities, this showing is decidedly encouraging, and speaks well for the good sense of our people, as evidenced by their continued confidence in the banks.

FAILURES AND SUSPENSIONS.

Since the last annual report four banks which were under the supervision of this office have been placed in the hands of receivers.

The Northwestern State Bank of Sibley, Iowa, made an assignment April 6, 1893, and H. E. Thayer was appointed receiver.

The Union Stock Yards State Bank of Sioux City made an assignment June 17, 1893, and E. C. Tompkins was appointed receiver.

The Aurelia Savings Bank, of Aurelia, was closed June 30, 1893, and W. P. Miller was appointed receiver.

The First Ute State Bank, of Ute, was found to be insolvent August 7, 1893, and Richard Palmer was appointed receiver.

In accordance with the provisions of law, these receivers are now closing up the affairs of their respective banks under the direction of the courts.

The principal cause of these failures was bad management on the part of the officers of the banks. The closeness of the money market also contributed its share in bringing about this result.

When we consider the fact that our financial institutions have lately been passing through one of the most trying ordeals in their history, it is a source of congratulation that out of the 325 banks under the supervision of this office only *four* (4) have been compelled to place their affairs in the hands of receivers. Such a record reflects the highest credit upon the ability and integrity of our bankers, and presents to the country the very best evidence of the prosperity and financial solidity of our State.

RECOMMENDATIONS.

The experience of the past few months has forcibly suggested that the law relating to the organization and management of the so-called State Banks is very incomplete, and should be revised and improved.

The law governing Savings Banks is reasonably full, and needs comparatively little revision.

I respectfully beg leave to make the following recommendations:

1. The liability to the bank on the part of an officer or director thereof should be limited by law.

2. An examining committee, whose duty it is to examine the affairs of the bank at least once a quarter, should be provided for.

3. All loans to directors or bank officers should be passed upon by the board of directors and their action made a matter of record; and no loans should be made to an officer or director except upon same security as that required of other borrowers.

4. A minimum cash reserve should be fixed by law.

5. Investments in real estate for use of the bank should be limited.

6. The stockholders should have power to levy an assessment upon the stock in order to prevent the impairment of the capital when such impairment is threatened.

Respectfully,

C. G. McCARTHY,
Auditor of State.

CONDITION OF THE TREASURY.

The amount of funds in the treasury at the close of the last fiscal period, June 30, 1891, including Agricultural College mortgage bonds, was \$844,995.68, belonging to the several funds as follows:

General revenue.....	\$ 488,058.95
Agricultural College endowment fund.....	356,888.73
Temporary school fund.....	48.00
Total.....	<u>\$ 844,995.68</u>

The amount received from all sources during the fiscal period ended June 30, 1893, was \$4,030,464.56, which was distributed as follows to the several funds:

General revenue.....	\$3,705,151.77
Agricultural College endowment fund.....	289,312.79
Additional Agricultural College endowment fund.....	35,000.00
Total receipts.....	<u>\$4,030,464.56</u>

The receipts being added to the balance on hand June 30, 1891, as shown above, makes \$4,875,460.24, as the amount to be accounted for. The disbursements during the fiscal period ended June 30, 1893, were as follows:

General revenue.....	\$3,781,229.27
Agricultural College endowment fund.....	195,728.90
Additional Agricultural College endowment fund.....	35,000.00
Temporary school fund.....	48.00
Total disbursements.....	<u>\$4,013,004.17</u>

Leaving a balance in the treasury June 30, 1893, of \$862,456.07, belonging to the several funds as follows:

General revenue.....	\$ 412,981.45
Agricultural College endowment fund.....	449,474.62
Total.....	<u>\$ 862,456.07</u>

AMOUNT DUE FROM REVENUE TO SCHOOL FUND.

The revenue fund has become responsible to the school fund for the following bonds:

Bond No. 3, issued to the permanent school fund of the State, for losses to the school fund, under section 2, chapter 134, Laws of 1864, dated November 1, 1871, interest payable on the first days of January and July of each year, at 8 per cent for.....	\$ 8,558.14
Bond No. 4, issued to the permanent school fund of the State, for losses to the school fund, under section 2, chapter 134, Laws of 1864, dated January 5, 1876, interest payable on the first days of January and July in each year, at 8 per cent for.....	2,379.04
Total.....	\$ 10,937.18

SUMMARY.

Showing the total amount of the permanent school fund, and how it was invested June 30, 1893, as shown by the books in this office, as follows:

Amount held by the several counties.....	\$4,652,833.24
Amount in State bonds drawing 8 per cent interest.....	10,937.18
Amount of contracts on hand for real estate sold.....	600.00
Amount in State Treasury.....	None
Total.....	\$4,664,370.42

The above may be considered the entire available interest-bearing school fund of the State. In addition to this there are, as described in Statement XII, lots and lands bought in by the State for the use of the school fund on foreclosure of mortgages belonging to the Eads' loans, and not yet resold, estimated in previous reports to be worth \$3,985.00; this is not available and is not included in the foregoing summary. Neither are the notes and mortgages shown on preceding page included, because they are practically worthless.

There has been an increase in the permanent school fund, from the sale of school lands, since last report of \$188,772.00.

Bonds Nos. 1 and 2, given by the State to the permanent school fund for \$234,498.01, as shown under this head in the last report, were paid in full April 20, 1892, from the proceeds of the refund by the general government of the direct war tax, on April 19, 1892, as provided for by chapter 194, Laws of the Twenty-second General Assembly. See page 66, of this report, for the distribution of this money.

^a Note.—The corporation taxes shown in the counties of Dubuque, Lee, Linn and Scott include the taxes levied by the cities of Dubuque, Keokuk, Cedar Rapids and Davenport, which were reported by the city officials to this office by request; they being organized under special charters, collect their taxes independently of the county treasurer, and do not certify them to the county auditor.

Add to the above the taxes of the telegraph companies, \$15,311.57, and the taxes of the telephone companies, \$4,890.00, not reported by the county auditors, and we have a grand total of \$16,093.283.01.

STATEMENT No. XXVII.

AUDITOR OF STATE.

101

*NOTE—The corporation taxes shown in the counties of Dubuque, Lee, Linn and Scott, include the taxes levied by the cities of Dubuque, Keokuk, Cedar Rapids and Davenport, which were reported by the city officials to this office by request; they being organized under special charters, collect their taxes independently of the county treasurer, and do not certify them to the county auditor.

Add to the above the taxes of the telegraph companies, \$15,313.37, and the taxes of the telephone companies, \$4,890.00, not reported by the county auditors, and we have a grand total of \$16,909,874.71.

STATEMENT No. XXVIII.
